South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

I have forwarded this information to everyone I know that is on my email list. I have also put this information on facebook!

Who and what does Duke Energy choose to be known as being/doing and who and what does the States of North and South Carolinas choose to be known as---

People are waking up Integrity and care of now and future generations are demonstrated from Who and What One stands for. May God in all of us prevail over lower values and actions!! The time is NOW!

CLEAN AIR IS A GOD GIVEN GIFT; WHO AND WHAT HAS THE RITE TO DESTROY IT.
MAY GOD PREVAIL.

Sincerely,
